HOUSE OF THE HILL

# Larger than Life

Builders package cosy into grandiose spaces

WRITTEN BY REBECCA ALBERICO

▲ Five thousand sq. ft., three years to completion and zero limitations. Dubbed "The House of the Hill," this stunning design Generation Homes build is nestled in the heart of Woodbridge at 4599 Langstaff Rd. The welcoming structure hugs the curves of the hill while maintaining a strong, bold esthetic. Its clean lines and crisp accents flow seamlessly from exterior to interior. With an abundance of natural light flowing in through beautifully oversized windows, the space is reminiscent of a sanctuary.
